

## News

16 July 2007

### **DIN EN ISO 9001:2000 re-certification successfully achieved**

On 4 and 5 June 2007, eccos pro gmbh successfully passed a re-certification audit conducted by AGCS Quality and Environmental Management GmbH.

After checking the details of our quality management systems, it was again demonstrated that the requirements of DIN EN ISO 9001:2000 had been met.

According to the auditor's inspection report, "particularly noteworthy are the processes which add value, which are comprehensible and transparent, as well as the efficient improvement management systems."

Eccos pro gmbh receiving this DIN EN ISO 9001:2000 certification, and our process-oriented quality management, guarantees our customers the highest level of quality assurance. It also ensures that recognized needs for improvement will be incorporated into our process of continuous improvement. And this is vital in continuing to meet our company's target of providing complete customer satisfaction.
